- No maintenance costs

Simply place the unit on or near the tag to deactivate

How to Operate?

Efficient

- Saves daily labor time
- Ideal for deactivating large items
- Hand Held very mobile
- Saves valuable counter space with hanging bracket

source tag Deactivator

Simply the Simplest Technology™

Benefits

1. Powerful deactivation
2. No electricity required
3. Simple to install (5 mounting screws included)
4. Cost effective for multiple check out locations
 - a. Registers
 - b. Customer Service center
 - c. Exit doors
5. Easy cashier access for large and hard to reach check out items
 - a. Reduces time at check out
 - b. Reduces the risk of employee & customer injury
6. Fewer false alarms
 - a. Cashiers find the product effortless which increases proper deactivation
 - b. False alarms desensitize personnel to alarms
 - c. Proper deactivation helps keep personnel alert to alarms
7. Ergonomic design: small, efficient to move around the P.O.S. zone
8. Works side by side with your current EAS deactivation system
9. 10' long coiled security cable (Retracts to 5"-no clutter at the P.O.S.)
10. Compact for back side check out mounting
11. Magnetic mounting base provides assisted docking of hand held to base
12. Theft prevention - a permanent internal source tag stops theft by setting off the alarm
13. Operates with all 58kHz AM systems
14. Limited lifetime warranty
